

Chakras 5 Classes

Swami Kriyananda gave a talk series called “Yoga as a Way of Life” at the Spiritual Renewal Week Retreat in 1983. This collection of talks is a comprehensive study of the chakras with guided visualizations in several classes. He explained at the beginning of the week that he intended to address Yoga as a Way of Life in relation to the chakras.

Raja Yoga Companion Talks

In the early years of the 14 Steps, now called “Ananda Course in Self-Realization” referred to as “the course,” certain talks by Swami were selected to go along along with the Ananda Course in Self-Realization. These talks were not improved digitally, they were simply made into mp3s “as is.” The content is very inspiring and helpful.

These talks were not made into Treasures monthly offerings.

Treasures Talks

In the early years of Ananda, Swami Kriyananda gave all the talks, classes and events himself and there are thousands of reel to reel, cassettes and other media, full of these talks. Treasures Along the Path was started by Swami in 1998 so that devotees could join the talk of the month club and receive one newly digitized talk from the Ananda archives each month, as well as make individual talks available to everyone. The talks are kept in folders according to the date that Treasures issued the “new” talk. There is an excel spread sheet in the folder called “Lists and Info” that lists all the talks in alphabetical order previously issued by Treasures, the year they were issued and the date the class was given “original recording date.”

See spreadsheet with the names of the talks “Lists of Talks in Alphabetical Order.”
